

## *For a world in motion*

### *Vision*

OKS is an internationally renowned supplier of high-quality chemo-technical products and speciality lubricants in the fields of maintenance and operation

### *Corporate policy*

- We develop, produce and sell products with the highest possible quality
- We are firmly committed to complying with applicable laws and regulations as well as our internal guidelines and standards
- The permanent fulfilment of the diverse, changing and increasing requirements of our customers is the focus of our actions
- Based on an analysis of the market- and customer-oriented processes, we constantly strive to improve the products and services we offer
- We uphold and observe our future-aligned quality and environmental standards and high product safety requirements all the way from product development
- The environmental impacts of our products are reduced through the use of innovative technologies and renewable resources and the longevity of our products
- We take the utmost care to ensure the safety and protection of our employees and contractors. Through preventive work protection based on comprehensive risk analyses, we strive to achieve an accident rate of zero
- All employees are committed to our quality, environmental protection and occupational safety standards and actively participate in the continuous improvement of our services
- We use a process-oriented management system in accordance with the international ISO 9001, ISO 14001 and ISO 45001 standards for quality, environmental and occupational safety management in order to efficiently achieve our clear objectives, continuously improve our performance and ensure the successful and sustainable further development of our company
