Personal protective equipment					
Eye protection :	Safety glasses with side-shields				
5	Nitrile rubber > 10 min Class 1				
Remarks :	For prolonged or repeated contact use protective gloves. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. The selected protective gloves have to satisfy the specifica- tions of Regulation (EU) 2016/425 and the standard EN 374 derived from it.				
Skin and body protection :	Choose body protection in relation to its type, to the concen- tration and amount of dangerous substances, and to the spe- cific work-place.				
Respiratory protection :	Not required; except in case of aerosol formation.				
Filter type :	Filter type P				
Protective measures :	The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
