according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 641

Version	Revision Date:	Date of last issue: 20.07.2021	Print Date:
4.1	21.12.2022	Date of first issue: 09.07.2016	21.12.2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier Product name	:	OKS 641		
1.2	Relevant identified uses of th	e s	ubstance or mixture and uses advised against		
	Use of the Sub- stance/Mixture	:	Lubricant spray		
	Recommended restrictions on use	:	Restricted to professional users.		
1.3	Details of the supplier of the	saf	ety data sheet		
	Company	:	OKS Spezialschmierstoffe GmbH Ganghoferstr. 47 D-82216 Maisach-Gernlinden Tel.: +49 8142 3051 500 Fax.: +49 8142 3051 599 info@oks-germany.com		
	E-mail address of person responsible for the SDS	:	mcm@oks-germany.com Material Compliance Management		
	National contact	:			
1.4	1.4 Emergency telephone number				
	Emergency telephone num- ber	:	CIAV - Information Centre of Antipoison (+351) 800 250 250 (free 24/7 service)		

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)				
Aerosols, Category 2	H223: Flammable aerosol. H229: Pressurised container: May burst if heated.			
Aspiration hazard, Category 1	H304: May be fatal if swallowed and enters air- ways.			

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 641

Version	Revision Date:	Date of last issue: 20.07.2021	Print Date:
4.1	21.12.2022	Date of first issue: 09.07.2016	21.12.2022

2.2 Label elements

Labelling (REGULATION (EC) Hazard pictograms :	No 1272/2008)	
Signal word :	Danger	
Hazard statements :	H223 H229 H304	Flammable aerosol. Pressurised container: May burst if heated. May be fatal if swallowed and enters air- ways.
Supplemental Hazard : Statements	EUH066	Repeated exposure may cause skin dryness or cracking.
Precautionary statements :	Prevention:	
	P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
	P211	Do not spray on an open flame or other ignition source.
	P251	Do not pierce or burn, even after use.
	Response:	
	P301 + P310	IF SWALLOWED: Immediately call a POISON CENTER/ doctor.
	P331	Do NOT induce vomiting.
	Storage:	
	P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122 °F.

Hazardous components which must be listed on the label:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha

Additional Labelling

EUH208 Contains Sulfonic acids, petroleum, calcium salts. May produce an allergic reaction.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

Version 4.1	Revision Date: 21.12.2022	Date of last issue: 20.07.2021 Date of first issue: 09.07.2016	Print Date: 21.12.2022	

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures If inhaled : Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If breathing is irregular or stopped, administer artificial respiration. In case of skin contact Take off all contaminated clothing immediately. 2 Get medical attention immediately if irritation develops and persists. Wash clothing before reuse. Thoroughly clean shoes before reuse. Wash skin thoroughly with soap and water or use recognized skin cleanser. Rinse immediately with plenty of water, also under the eyelids, In case of eye contact : for at least 10 minutes. Seek medical advice. If swallowed Move the victim to fresh air. : Keep respiratory tract clear. Do NOT induce vomiting. Obtain medical attention. Rinse mouth with water. Aspiration hazard if swallowed - can enter lungs and cause damage.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms	: Inhalation may provoke the following symptoms: Unconsciousness Dizziness Drowsiness Headache Nausea Tiredness Skin contact may provoke the following symptoms: Erythema
	Aspiration may cause pulmonary oedema and pneumonitis.
Risks	: Can be absorbed through skin.

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 641

Version	Revision Date:	Date of last issue: 20.07.2021	Print Date:

Risk of product entering the lungs on vomiting after ingestion. Health injuries may be delayed.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment	
-----------	--

: Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	:	ABC powder
Unsuitable extinguishing media	:	High volume water jet

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire- fighting	:	Fire Hazard Do not let product enter drains. Contains gas under pressure; may explode if heated. Beware of vapours accumulating to form explosive concentra- tions. Vapours can accumulate in low areas.
Hazardous combustion prod- ucts	:	Carbon oxides Nitrogen oxides (NOx) Sulphur oxides
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment. Exposure to decomposi- tion products may be a hazard to health.
Further information	:	Standard procedure for chemical fires. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Cool containers/tanks with water spray.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	: Evacuate personnel to safe areas.
	Ensure adequate ventilation.
	Remove all sources of ignition.
	Do not breathe vapours or spray mist.
	Refer to protective measures listed in sections 7 and 8.
	Only qualified personnel equipped with suitable protective
	equipment may intervene.

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 641

Version	Revision Date:	Date of last issue: 20.07.2021	Print Date:
4.1	21.12.2022	Date of first issue: 09.07.2016	21.12.2022

6.2 Environmental precautions

Environmental precautions	 Try to prevent the material from entering drains or water courses. Prevent further leakage or spillage if safe to do so. Local authorities should be advised if significant spillages cannot be contained.
6.3 Methods and material for co	ntainment and cleaning un

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal. Non-sparking tools should be used.
-------------------------	---	---

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling :	Do not use in areas without adequate ventilation. Do not breathe vapours or spray mist. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin and eyes. For personal protection see section 8. Keep away from fire, sparks and heated surfaces. Smoking, eating and drinking should be prohibited in the ap- plication area. Wash hands and face before breaks and immediately after handling the product. Do not get in eyes or mouth or on skin. Do not get on skin or clothing. Do not ingest. Do not use sparking tools. These safety instructions also apply to empty packaging which may still contain product residues. Pressurized container: protect from sunlight and do not ex- pose to temperatures exceeding 50 °C. Do not pierce or burn, even after use.
Hygiene measures :	Wash face, hands and any exposed skin thoroughly after handling.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage	:	BEWARE: Aerosol is pressurized. Keep away from direct sur

	lates (petroleum), so axed heavy paraffinic		9,33 mg/kg

8.2 Exposure controls

Engineering measures

Baseoil — unspecified

Use only in an area equipped with explosion proof exhaust ventilation. Handle only in a place equipped with local exhaust (or other appropriate exhaust).

Personal protective equipment	
Eye protection :	Safety glasses with side-shields
Hand protection Material : Break through time : Protective index :	butyl-rubber > 10 min Class 1
Remarks :	Wear protective gloves. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. The selected protective gloves have to satisfy the specifica- tions of Regulation (EU) 2016/425 and the standard EN 374 derived from it.
Skin and body protection :	Choose body protection in relation to its type, to the concen- tration and amount of dangerous substances, and to the spe- cific work-place.
Respiratory protection :	Use respiratory protection unless adequate local exhaust ven- tilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Short term only
Filter type :	Filter type A-P
Protective measures :	The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	:	aerosol
Colour	:	brown
Odour	:	hydrocarbon-like

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

Version 4.1	Revision Date: 21.12.2022		of last issue: 20.07.2021 of first issue: 09.07.2016	Print Date: 21.12.2022

4.1	21.12.2022	Date of first issue: 09.07.2016	21.12.2022

9.2 Other information

Explosives	:	Not explosive
Oxidizing properties	:	No data available
Self-ignition	:	No data available
Metal corrosion rate	:	Not corrosive to metals
Evaporation rate	:	No data available
Heat of combustion	:	< 20 kJ/g
Sublimation point	:	No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

No hazards to be specially mentioned.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : No dangerous reaction known under conditions of normal use.

10.4 Conditions to avoid

Conditions to avoid : Heat, flames and sparks. Strong sunlight for prolonged periods. Risk of receptacle bursting.

10.5 Incompatible materials

Materials to avoid	:	Oxidizing agents
--------------------	---	------------------

10.6 Hazardous decomposition products

No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Product:

Acute oral toxicity

Global warming potential

The Fifth Assessment Report of the United Nations Intergovernmental Panel on Climate Change (IPCC)

Components:

mation

carbon dioxide:

20-year global warming potential: 1 100-year global warming potential: 1 Further information: No single lifetime can be given. The impulse response function for CO2 from Joos et al. (2013) has been used. See also Supplementary Material Section 8.SM.11.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	:	Do not dispose of with domestic refuse. Dispose of as hazardous waste in compliance with local and national regulations.
		Waste codes should be assigned by the user based on the application for which the product was used.
Contaminated packaging	:	Packaging that is not properly emptied must be disposed of as the unused product. Offer empty spray cans to an established disposal company. Pressurized container: Do not pierce or burn, even after use.
		The following Waste Codes are only suggestions:

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Remarks

: Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	: Not applicable	
REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59). (EU SVHC)	 This product does not contain sub- stances of very high concern (Regu- lation (EC) No 1907/2006 (REACH), Article 57). 	
REACH - List of substances subject to authorisation (Annex XIV) (EU. REACH-Annex XIV)	: Not applicable	
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer (EC 1005/2009)	: Not applicable	
Regulation (EU) 2019/1021 on persistent organic pollu- tants (recast) (EU POP)	: Not applicable

This safety data sheet applies only to products as originally packed and labelled. The information contained therein may not be reproduced or modified without our express written permission. Any forwarding of this document is only permitted to the extent required by law. Any further, in particular public, dissemination of the safety data sheet (e.g. as a document for download from the Internet) is not permitted without our express written consent. We provide our customers with amended safety data sheets as prescribed by law. The customer is responsible for passing on safety data sheets and any amendments contained therein to its own customers, employees and other users of the product. We provide no guarantee that safety data sheets received by users from third parties are up-to-date. All information and instructions in this safety data sheet have been compiled to the best of our knowledge and are based on the information available to us on the day of publication. The information provided is intended to describe the product in relation to the required safety measures; it is neither an assurance of characteristics nor a guarantee of the product's suitability for particular applications and does not justify any contractual legal relationship. The existence of a safety data sheet for a particular jurisdiction does not necessarily mean that import or use within that jurisdiction is legally permitted. If you have any questions, please contact your responsible sales contact or authorized trading partner.
