

For a world in motion

Vision

OKS is an internationally renowned supplier of high-quality chemo-technical products and speciality lubricants for maintenance and operation.

Company policy:

- We develop, produce and sell products of the highest possible quality.
- We commit ourselves to the observance of existing laws and regulations as well as our internal guidelines and standards.
- The continued fulfilment of the wide-ranging, continuously evolving and ever-rising requirements of our customers forms the focus of our activities.
- On the basis of an analysis of the market- and customer-oriented processes we consistently work on improving our products and the services provided by us.
- Our future-oriented quality and environmental standards as well as stringent requirements for the product safety are borne in mind already in the development of the product.
- The environmental impact of our products is reduced by the application of innovative technologies, the use of renewable resources and the durability of our products.
- We exercise extreme diligence in ensuring the safety and protection of our employees and contractors. Through preventive and proactive occupational safety measures on the basis of comprehensive hazard analyses we strive to achieve a target of zero accidents.
- All employees are bound to our quality, environmental and occupational safety requirements and actively engage in continuously improving our performance.
- We use a process-oriented management system fulfilling the international standards ISO 9001, ISO 14001 and ISO 18001 for quality, environmental and occupational safety management in order to reach our clearly set goals efficiently, continuously improve our performance, and further develop our company successfully and sustainably.
