

Corporate Policy

Highest product quality, active environmental protection and occupational health and safety are important prerequisites for the long-term success of OKS Spezialschmierstoffe. The following principles are therefore fundamental to our corporate policy:

- The entire company is focused on developing, manufacturing and selling lubricants, corrosion protection and maintenance products of the highest possible quality. Our aim is a customer who is highly satisfied with our products and our service.
- All employees are committed to the quality, environmental protection and health and safety standards of OKS and participate actively in the constant improvement of our performance.
- Adherence to legal regulations represents a minimum requirement for us.
- We reduce the environmental impact of our products by employing innovative techniques, using renewable resources and creating long-lasting products.
- The environmental impact of manufacturing our products is kept to a minimum through state-of-the-art production methods, safe and environmentally friendly manufacturing processes.
- We develop our products with our high quality and environmental protection standards in mind from the outset, enabling us to create new, powerful products with the lowest possible ecological relevance.
- Quality, environmental protection and occupational health and safety are continuously improved and enhanced by means of worldwide benchmarking.

Munich, July 29th 2008

Norbert Schiekl

Managing Director
OKS Spezialschmierstoffe GmbH
