SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1 Product identifier | | | | | | |
|--|------|---|--|--|--|--|
| Product name | : | OKS 2101 | | | | |
| | | | | | | |
| 1.2 Relevant identified uses of t | he s | substance or mixture and uses advised against | | | | |
| Use of the Substance/Mixture | : | Anticorrosion additive | | | | |
| Recommended restrictions on use | : | Restricted to professional users. | | | | |
| 1.3 Details of the supplier of the | saf | - | | | | |
| Company | : | OKS Spezialschmierstoffe GmbH Ganghoferstr. 47 D-82216 Maisach-Gernlinden Tel.: +49 8142 3051 500 Fax.: +49 8142 3051 599 info@oks-germany.com | | | | |
| E-mail address of person responsible for the SDS | : | mcm@oks-germany.com | | | | |
| National contact | : | | | | | |
| 1.4 Emergency telephone number | | | | | | |

1.4 Emergency telephone number

| Emergency telephone | : | CIAV - Information Centre of Antipoison |
|---------------------|---|---|
| number | | (+351) 800 250 250 (free 24/7 service) |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

| Classification (REGULATION (EC) No 1272/2008) | | | | |
|--|---|--|--|--|
| Aerosols, Category 1 | H222: Extremely flammable aerosol. H229: Pressurised container: May burst if heated. | | | |
| Skin irritation, Category 2 | H315: Causes skin irritation. | | | |
| Specific target organ toxicity - single exposure, Category 3, Central nervous system | H336: May cause drowsiness or dizziness. | | | |

| Version 2.6 | Revision Date: 07.03.2024 | | | ue: 07.03.2024 sue: 22.06.2016 | Print Date: 07.03.2024 |
|----------------|--|---------------------|----------------------|--------------------------------------|---|
| Aspir | ration hazard, Category | y 1 | | H304: May be fatal if sw airways. | allowed and enters |
| | -term (chronic) aquatic gory 2 | : haza | ard, | H411: Toxic to aquatic li | ife with long lasting effects. |
| 2.2 Label | elements | | | | |
| | elling (REGULATION (ard pictograms | (EC) I : | No 1272/200 | | ¥_ |

Hazardous components which must be listed on the label:

pentane

Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics

Hydrocarbons, C11-C12, isoalkanes, < 2% aromatics

| Version | Revision Date: | Date of last issue: 07.03.2024 | Print Date: |
|---------|----------------|---------------------------------|-------------|
| 2.6 | 07.03.2024 | Date of first issue: 22.06.2016 | 07.03.2024 |

Hydrocarbons, C6, isoalkanes, <5% n-hexane

Additional Labelling

EUH208

208 Contains calcium bis(dinonylnaphthalenesulphonate). May produce an allergic reaction.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures

| If inhaled : | Call a physician or poison control centre immediately. Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If breathing is irregular or stopped, administer artificial respiration. |
|---------------------------|---|
| In case of skin contact : | Take off all contaminated clothing immediately. Wash off immediately with soap and plenty of water. Get medical attention immediately if irritation develops and persists. Wash clothing before reuse. Thoroughly clean shoes before reuse. |
| In case of eye contact : | Rinse immediately with plenty of water, also under the eyelids, for at least 10 minutes. If eye irritation persists, consult a specialist. |
| If swallowed : | Move the victim to fresh air. If accidentally swallowed obtain immediate medical attention. Keep respiratory tract clear. Do NOT induce vomiting. Rinse mouth with water. |

| OKS 2101 | | | | | |
|-------------|-------------------|---|------------------------------|--|--|

| Version | Revision Date: | Date of last issue: 07.03.2024 | Print Date: | | |
| 2.6 | 07.03.2024 | Date of first issue: 22.06.2016 | 07.03.2024 | | |
| 4.2 Moot ii | | Aspiration hazard if swallowed - ca damage. | n enter lungs and cause | | |
| 4.2 WOST II | mportant symptoms | and effects, both acute and delayed | | | |
| Symp | toms | : Aspiration may cause pulmonary of | edema and pneumonitis. | | |
| | | Inhalation may provoke the followin Unconsciousness Dizziness Drowsiness Headache Nausea Tiredness Skin contact may provoke the follow Erythema | | | |
| Risks | | Central nervous system depression Risk of product entering the lungs of Health injuries may be delayed. Causes skin irritation. May cause an allergic skin reaction | on vomiting after ingestion. | | |

4.3 Indication of any immediate medical attention and special treatment needed

| _ | |
|---|----------|
| Т | reatment |

5.1 Extinguishing media

: Treat symptomatically.

SECTION 5: Firefighting measures

| | Suitable extinguishing media | : | ABC powder |
|-----|--------------------------------------|-----|--|
| | Unsuitable extinguishing media | : | High volume water jet |
| 5.2 | Special hazards arising from | the | e substance or mixture |
| | Specific hazards during firefighting | : | Fire Hazard Do not let product enter drains. Contains gas under pressure; may explode if heated. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. |
| | Hazardous combustion products | : | Carbon oxides |

5.3 Advice for firefighters

Special protective equipment : In the event of fire, wear self-contained breathing apparatus.

| UU I | •• | | | |
|---------------------|------------------------------|---|---------------------------------|--|
| Version 2.6 | Revision Date: 07.03.2024 | Date of last issue: 07.03.2024 Date of first issue: 22.06.2016 | Print Date: 07.03.2024 | |
| for firefighters | | Use personal protective equipment. Exposure to decomposition products may be a hazard to health. | | |
| Further information | | : Standard procedure for chemical Collect contaminated fire extinguis must not be discharged into drain Cool containers/tanks with water s | shing water separately. This s. | |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | Evacuate personnel to safe areas. Ensure adequate ventilation. Remove all sources of ignition. Do not breathe vapours or spray mist. Do not breathe dust/ fume/ gas/ mist/ vapours/ spray. Refer to protective measures listed in sections 7 and 8. Only qualified personnel equipped with suitable protective equipment may intervene. | |
|----------------------|---|--|
|----------------------|---|--|

6.2 Environmental precautions

| Environmental precautions | : | Do not allow contact with soil, surface or ground water. |
|---------------------------|---|---|
| | | Prevent further leakage or spillage if safe to do so. |
| | | If the product contaminates rivers and lakes or drains inform |
| | | respective authorities. |

6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | : | Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal. Non-sparking tools should be used. |
|-------------------------|---|---|
|-------------------------|---|---|

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

 Advice on safe handling
 : Do not use in areas without adequate ventilation.

 Do not breathe vapours or spray mist.

 In case of insufficient ventilation, wear suitable respiratory equipment.

| OKS 21 | 01 | | |
|----------------|---|---|-------|
| Version 2.6 | Revision Date: 07.03.2024 | Date of last issue: 07.03.2024Print Date:Date of first issue: 22.06.201607.03.2024 | |
| | | Avoid contact with skin and eyes. For personal protection see section 8. Keep away from fire, sparks and heated surfaces. Smoking, eating and drinking should be prohibited in the application area. Wash hands and face before breaks and immediately after handling the product. Do not get in eyes or mouth or on skin. Do not get on skin or clothing. Do not ingest. Do not use sparking tools. These safety instructions also apply to empty packaging of may still contain product residues. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce of burn, even after use. | which |
| Hygi | ene measures | : Wash face, hands and any exposed skin thoroughly after handling. | |
| 7.2 Cond | itions for safe storage | including any incompatibilities | |
| | uirements for storage s and containers | : BEWARE: Aerosol is pressurized. Keep away from direct exposure and temperatures over 50 °C. Do not open by for or throw into fire even after use. Do not spray on flames or red-hot objects. Store in accordance with the particular national regulations. | orce |
| - | f ic end use(s) ific use(s) | : Specific instructions for handling, not required. | |

| 2.6 | 07.03.2024 | Date of first issue: 22.06.2016 | 07.03.2024 |

8.2 Exposure controls

Engineering measures

Use only in an area equipped with explosion proof exhaust ventilation. Handle only in a place equipped with local exhaust (or other appropriate exhaust).

| Personal protective equipment | t |
|-------------------------------|---|
| Eye/face protection : | Safety glasses with side-shields |
| 5 | Nitrile rubber > 10 min Class 1 |
| Remarks : | Wear protective gloves. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it. |
| Skin and body protection : | Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. |
| Respiratory protection : | Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Short term only |
| Filter type : | Filter type A-P |
| Protective measures : | The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. |

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

| Physical state | : | aerosol |
|-----------------|---|-------------------|
| Colour | : | yellow |
| Odour | : | characteristic |
| Odour Threshold | : | No data available |

| Version | Revision Date: | Date of last issue: 07.03.2024 | Print Date: |
|---------|----------------|---------------------------------|-------------|
| 2.6 | 07.03.2024 | Date of first issue: 22.06.2016 | 07.03.2024 |

| Melting point/range | : | No data available |
|---|---|--|
| Boiling point/boiling range | : | -161 °C (1.013 hPa) |
| Flammability (solid, gas) | : | Extremely flammable aerosol. |
| Upper explosion limit / Upper flammability limit | : | 9,4 %(V) |
| Lower explosion limit / Lower flammability limit | : | 0,6 %(V) |
| Flash point | : | 0 °C Method: Abel-Pensky |
| Auto-ignition temperature | : | No data available |
| Decomposition temperature | : | No data available |
| рН | : | Not applicable substance/mixture is non-soluble (in water) |
| Viscosity | | |
| Viscosity, dynamic | | No data available |
| Viscosity, kinematic | : | < 20,5 mm2/s (40 °C) |
| Solubility(ies) Water solubility | : | insoluble |
| Solubility in other solvents | : | No data available |
| Partition coefficient: n- octanol/water | : | No data available |
| Vapour pressure | : | 8.327 hPa (20 °C) |
| Relative density | : | 0,638 (20 °C) Reference substance: Water The value is calculated |
| Density | : | 0,64 g/cm3 (20 °C) |
| Bulk density | : | No data available |

11.2 Information on other hazards

Endocrine disrupting properties

Product:

| Assessment | : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. |
|---------------------|---|
| Further information | |
| Product: | |
| Remarks | Ingestion causes irritation of upper respiratory system and gastrointestinal disturbance. |

Components:

| Paraffin waxes and Hydrocarbon waxes: | | | | | |
|---------------------------------------|---|--|--|--|--|
| Remarks | : | Information given is based on data on the components and the toxicology of similar products. | | | |

14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Remarks

: Not applicable for product as supplied.

Date of last issue: 07.03.2024 Version Revision Date: Print Date: 07.03.2024 Date of first issue: 22.06.2016 07.03.2024 2.6 Note C Some organic substances may be marketed either in a : specific isomeric form or as a mixture of several isomers. In this case the supplier must state on the label whether the substance is a specific isomer or a mixture of isomers. Note P The harmonised classification as a carcinogen or mutagen : applies unless it can be shown that the substance contains less than 0,1 % w/w benzene (Einecs No 200-753-7), in which case a classification in accordance with Title II of this Regulation shall be performed also for those hazard classes. Where the substance is not classified as a carcinogen or mutagen, at least the precautionary statements (P102-)P260-P262-P301 + P310-P331 shall apply. Note U (table 3.1) When put on the market gases have to be classified as "Gases under pressure", in one of the groups compressed gas, liquefied gas, refrigerated liquefied gas or dissolved gas. The group depends on the physical state in which the gas is packaged and therefore has to be assigned case by case. The following codes are assigned: Press. Gas (Comp.) Press. Gas (Lig.) Press. Gas (Ref. Lig.) Press. Gas (Diss.) Aerosols shall not be classified as gases under pressure (See Annex I, Part 2, Section 2.3.2.1, Note 2). Europe.
