according to Regulation (EC) No. 1907/2006 - FR (Commission Regulation (EU) 2020/878)

OKS 250

Version	Revision Date:	Date of last issue: 10.08.2021	Print Date:
3.1	20.06.2022	Date of first issue: 23.06.2016	20.06.2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier		0//0.050
Product name	:	OKS 250
1.2 Relevant identified uses of t	he s	ubstance or mixture and uses advised against
Use of the Sub- stance/Mixture	:	Lubricant
Recommended restrictions on use	:	Restricted to professional users.
1.3 Details of the supplier of the	e saf	ety data sheet
Company	:	OKS Spezialschmierstoffe GmbH Ganghoferstr. 47 D-82216 Maisach-Gernlinden Tel.: +49 8142 3051 500 Fax.: +49 8142 3051 599 info@oks-germany.com
E-mail address of person responsible for the SDS	:	mcm@oks-germany.com Material Compliance Management
National contact	:	
1.4 Emergency telephone numb	per	
Emergency telephone num- ber	:	+33 1 45 42 59 59
SECTION 2: Hazards identified		
2.1 Classification of the substan	nce o	or mixture
Classification (REGULATIO	ON (E	
Skin irritation Category 2		H315 [.] Causes skin irritation

Skin irritation, Category 2	H315: Causes skin irritation.
Serious eye damage, Category 1	H318: Causes serious eye damage.
Short-term (acute) aquatic hazard, Cate- gory 1	H400: Very toxic to aquatic life.
Long-term (chronic) aquatic hazard, Cat- egory 3	H412: Harmful to aquatic life with long lasting ef- fects.

according to Regulation (EC) No. 1907/2006 - FR (Commission Regulation (EU) 2020/878)

OKS 250

Version	Revision Date:	Date of last issue: 10.08.2021	Print Date:
3.1	20.06.2022	Date of first issue: 23.06.2016	20.06.2022

2.2 Label elements

Labelling (REGULATION (EC) Hazard pictograms :	No 1272/2008)	12
Signal word :	Danger	
Hazard statements :	H315 H318 H410	Causes skin irritation. Causes serious eye damage. Very toxic to aquatic life with long lasting effects.
Precautionary statements :	Prevention: P264 P273 P280	Wash skin thoroughly after handling. Avoid release to the environment. Wear protective gloves/ eye protection/ face protection.
	Response:	
	P305 + P351 + P3	338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor.
	P332 + P313	If skin irritation occurs: Get medical advice/ attention.
	P391	Collect spillage.

Hazardous components which must be listed on the label:

calcium dihydroxide

Additional Labelling

EUH208	Contains Molybdenum trioxide, reaction products with bis[O,O-bis(2-ethylhexyl)] hydrogen dithiophosphate. May produce an allergic reaction.
EUH212	Warning! Hazardous respirable dust may be formed when used. Do not breathe dust.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

according to Regulation (EC) No. 1907/2006 - FR (Commission Regulation (EU) 2020/878)

SECTION 4: First aid measures

4.1 Description of first aid measures

If inhaled :	Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If breathing is irregular or stopped, administer artificial respira- tion.
In case of skin contact :	Take off all contaminated clothing immediately. Wash off immediately with soap and plenty of water. Get medical attention immediately if irritation develops and persists. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact :	Rinse immediately with plenty of water, also under the eyelids, for at least 10 minutes. Get medical attention immediately.
If swallowed :	Move the victim to fresh air. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. Do not induce vomiting without medical advice. Obtain medical attention. Never give anything by mouth to an unconscious person.
4.2 Most important symptoms and	effects, both acute and delayed
Symptoms :	Skin contact may provoke the following symptoms: Erythema Allergic appearance
Risks :	Causes skin irritation. May cause an allergic skin reaction.
4.3 Indication of any immediate me	edical attention and special treatment needed
Treatment :	The first aid procedure should be established in consultation with the doctor responsible for industrial medicine. Treat symptomatically.

according to Regulation (EC) No. 1907/2006 - FR (Commission Regulation (EU) 2020/878)

OKS 250

Version	Revision Date:	Date of last issue: 10.08.2021	Print Date:
3.1	20.06.2022	Date of first issue: 23.06.2016	20.06.2022

SECTION 5: Firefighting measures

5.1 Extinguishing media

5.1 Extinguishing media		
Suitable extinguishing media	:	Use water spray, alcohol-resistant foam, dry chemical or car- bon dioxide.
Unsuitable extinguishing media	:	High volume water jet
5.2 Special hazards arising from	the	e substance or mixture
Hazardous combustion prod- ucts	:	Carbon oxides Nitrogen oxides (NOx) Oxides of phosphorus Metal oxides
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment. Exposure to decomposi- tion products may be a hazard to health.
Further information	:	Standard procedure for chemical fires. Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	 Evacuate personnel to safe areas. Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust). Do not breathe vapours, aerosols. Refer to protective measures listed in sections 7 and 8.

6.2 Environmental precautions

Environmental precautions	:	Do not allow contact with soil, surface or ground water.
		If the product contaminates rivers and lakes or drains inform
		respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Clean up promptly by sweeping or vacuum.
		Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

For personal protection see section 8.

according to Regulation (EC) No. 1907/2006 - FR (Commission Regulation (EU) 2020/878)

OKS 250

Version	Revision Date:	Date of last issue: 10.08.2021	Print Date:
3.1	20.06.2022	Date of first issue: 23.06.2016	20.06.2022

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling :	Do not use in areas without adequate ventilation. Avoid contact with skin and eyes. For personal protection see section 8. Persons with a history of skin sensitisation problems or asth- ma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used. Smoking, eating and drinking should be prohibited in the ap- plication area. Wash hands and face before breaks and immediately after handling the product. Do not get in eyes or mouth or on skin. Do not get on skin or clothing. Do not repack. These safety instructions also apply to empty packaging which may still contain product residues. Keep container closed when not in use.
Hygiene measures :	Wash face, hands and any exposed skin thoroughly after handling.
7.2 Conditions for safe storage, incl	uding any incompatibilities
Requirements for storage : areas and containers	Store in original container. Keep container closed when not in use. Keep in a dry, cool and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in accordance with the particular

7.3 Specific end use(s)

Specific use(s) : Specific instructions for handling, not required.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Engineering measures

none

Personal protective equipment

Eye protection	Eye	protection
----------------	-----	------------

: Tightly fitting safety goggles

Hand protection Material Break through time Protective index	:	butyl-rubber > 10 min Class 1
Remarks	:	Wear protective gloves. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. The selected protective gloves have to satisfy the specifica- tions of Regulation (EU) 2016/425 and the standard EN 374 derived from it.
Skin and body protection	:	Choose body protection in relation to its type, to the concen- tration and amount of dangerous substances, and to the spe- cific work-place.
Respiratory protection	:	Not required; except in case of aerosol formation.

to the concentration and amount of the dangerous substance

Dens Bulk	density	 1,29 g/cm3 (20 °C) No data available 			
Rela	tive vapour density	: No data available			
	r information osives	: Not explosive			
Oxid	izing properties	: No data available			
Self-	ignition	: not auto-flammable			
Meta	al corrosion rate	: Not corrosive to metals			
Evap	poration rate	: No data available			
Subl	imation point	: No data available			

SECTION 10: Stability and reactivity

10.1 Reactivity	
No hazards to be specially mention	oned.
10.2 Chemical stability	
Stable under normal conditions.	
10.3 Possibility of hazardous reaction	ons
Hazardous reactions :	No dangerous reaction known under conditions of normal use.
10.4 Conditions to avoid	
Conditions to avoid :	No conditions to be specially mentioned.
10.5 Incompatible materials	
Materials to avoid :	No materials to be especially mentioned.
10.6 Hazardous decomposition pro	ducts

No decomposition if stored and applied as directed.

Partition coefficient: n-	:	log Pow: > 4
octanol/water		

12.4 Mobility in soil

Product:

Mobility	:	Remarks: No data available
Distribution among environ- mental compartments	:	Remarks: No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment	:	This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Components:

titanium dioxide; [in powder form containing <1 % of particles with aerodynamic diameter \leq 10 μm]:

Assessment	:	Non-classified vPvB substance. Non-classified PBT substance
------------	---	---

12.6 Endocrine disrupting properties

Assessment	 The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at
	levels of 0.1% or higher.

12.7 Other adverse effects

Product:

Additional ecological infor-	:	Very toxic to aquatic organisms, may cause long-term adverse
mation		effects in the aquatic environment.

Components:

Molybdenum trioxide, reaction products with bis[O,O-bis(2-ethylhexyl)] hydrogen dithio-
phosphate:

Additional ecological infor-	:	May cause long lasting harmful effects to aquatic life.
mation

SECTION 13: Disposal considerations

13.1 Waste treatment methods	
Product :	The product should not be allowed to enter drains, water courses or the soil. Do not dispose of with domestic refuse. Dispose of as hazardous waste in compliance with local and national regulations.
	Waste codes should be assigned by the user based on the application for which the product was used.
Contaminated packaging :	Packaging that is not properly emptied must be disposed of as the unused product. Dispose of waste product or used containers according to local regulations.
	The following Waste Codes are only suggestions:
Waste Code :	used product, unused product 12 01 12*, spent waxes and fats
	uncleaned packagings 15 01 10, packaging containing residues of or contaminated by hazardous substances
