SECTION 4: First aid measures

4.1 Description of first aid measures If inhaled : Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If breathing is irregular or stopped, administer artificial respiration. In case of skin contact Take off all contaminated clothing immediately. 2 Get medical attention immediately if irritation develops and persists. Wash clothing before reuse. Thoroughly clean shoes before reuse. Wash skin thoroughly with soap and water or use recognized skin cleanser. Rinse immediately with plenty of water, also under the eyelids, In case of eye contact : for at least 10 minutes. Seek medical advice. If swallowed Move the victim to fresh air. 1 Keep respiratory tract clear. Do NOT induce vomiting. Obtain medical attention. Rinse mouth with water. Aspiration hazard if swallowed - can enter lungs and cause damage.
