SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1 | Product identifier | | |
|-----|--|------|---|
| | Product name | : | OKS 671 |
| 1.2 | Relevant identified uses of the | e s | ubstance or mixture and uses advised against |
| | Use of the Sub- stance/Mixture | : | Lubricant |
| | Recommended restrictions on use | : | Restricted to professional users. |
| 1.3 | Details of the supplier of the s | safe | ety data sheet |
| | Company | : | OKS Spezialschmierstoffe GmbH Ganghoferstr. 47 D-82216 Maisach-Gernlinden Tel.: +49 8142 3051 500 Fax.: +49 8142 3051 599 info@oks-germany.com |
| | E-mail address of person responsible for the SDS | : | mcm@oks-germany.com Material Compliance Management |
| | National contact | : | |
| 1.4 | Emergency telephone numbe | r | |
| | Emergency telephone num- ber | : | CIAV - Information Centre of Antipoison (+351) 800 250 250 (free 24/7 service) |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

| Classification (REGULATION (EC) No 1272/2008) | | | | |
|---|---|--|--|--|
| Aerosols, Category 1 | H222: Extremely flammable aerosol. H229: Pressurised container: May burst if heated. | | | |
| Aspiration hazard, Category 1 | H304: May be fatal if swallowed and enters air- ways. | | | |

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 671

| Version | Revision Date: | Date of last issue: 06.09.2021 | Print Date: |
|---------|----------------|---------------------------------|-------------|
| 3.3 | 06.02.2023 | Date of first issue: 10.07.2016 | 07.02.2023 |

2.2 Label elements

| Labelling (REGULATION (E Hazard pictograms | C) I : | No 1272/2008) | |
|---|------------------|----------------------|---|
| Signal word | : | Danger | |
| Hazard statements | : | H222 H229 H304 | Extremely flammable aerosol. Pressurised container: May burst if heated. May be fatal if swallowed and enters air- ways. |
| Supplemental Hazard Statements | : | EUH066 | Repeated exposure may cause skin dryness or cracking. |
| Precautionary statements | : | Prevention: | |
| | | P210 | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| | | P211 | Do not spray on an open flame or other ignition source. |
| | | P251 | Do not pierce or burn, even after use. |
| | | Response: | |
| | | P301 + P310 | IF SWALLOWED: Immediately call a POISON CENTER/ doctor. |
| | | P331 | Do NOT induce vomiting. |
| | | Storage: | |
| | | P410 + P412 | Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122 °F. |

Hazardous components which must be listed on the label:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures

| If inhaled | Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If breathing is irregular or stopped, administer artificial respiration. |
|-------------------------|--|
| In case of skin contact | Take off all contaminated clothing immediately. Get medical attention immediately if irritation develops and persists. Wash clothing before reuse. Thoroughly clean shoes before reuse. Wash skin thoroughly with soap and water or use recognized skin cleanser. |
| In case of eye contact | : Rinse immediately with plenty of water, also under the eyelids, for at least 10 minutes. |

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 671

| Version 3.3 | Revision Date: 06.02.2023 | Date of last issue: 06.09.2021 Date of first issue: 10.07.2016 | Print Date: 07.02.2023 | | | |
|----------------|------------------------------|---|--|--|--|--|
| | | Seek medical advice. | | | | |
| If swallowed | | Move the victim to fresh air. Keep respiratory tract clear. Do NOT induce vomiting. Obtain medical attention. Rinse mouth with water. Aspiration hazard if swallowed - cadamage. | Keep respiratory tract clear. Do NOT induce vomiting. Obtain medical attention. Rinse mouth with water. Aspiration hazard if swallowed - can enter lungs and cause | | | |
| 4.2 Most | important symptom | s and effects, both acute and delayed | | | | |
| Symptoms | | Inhalation may provoke the followi Unconsciousness Dizziness Drowsiness Headache Nausea Tiredness Skin contact may provoke the follo Erythema | owing symptoms: | | | |
| Risks | | : Can be absorbed through skin. | Risk of product entering the lungs on vomiting after ingestion | | | |
| 4.3 Indica | ation of any immedia | ate medical attention and special treatm | ent needed | | | |

Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

| Suitable extinguishing media | : | ABC powder |
|--------------------------------|---|-----------------------|
| Unsuitable extinguishing media | : | High volume water jet |

5.2 Special hazards arising from the substance or mixture

| Specific hazards during fire- fighting | : | Fire Hazard Do not let product enter drains. Contains gas under pressure; may explode if heated. Beware of vapours accumulating to form explosive concentra- tions. Vapours can accumulate in low areas. |
|---|---|--|
| Hazardous combustion prod- ucts | : | Carbon oxides |

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 671

| Version 3.3 | Revision Date: 06.02.2023 | | e of last issue: 06.09.2021 e of first issue: 10.07.2016 | Print Date: 07.02.2023 |

| | al protective equipment fighters | t : | In the event of fire, wear self-containe Use personal protective equipment. E tion products may be a hazard to heal | xposure to decomposi- |
| Furthe | r information | : | Standard procedure for chemical fires Collect contaminated fire extinguishing must not be discharged into drains. Cool containers/tanks with water spra | g water separately. This |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | Evacuate personnel to safe areas. Ensure adequate ventilation. Remove all sources of ignition. Do not breathe vapours or spray mist. Refer to protective measures listed in sections 7 and 8. Only qualified personnel equipped with suitable protective equipment may intervene. |
|----------------------|--|
|----------------------|--|

6.2 Environmental precautions

| Environmental precautions | : | Try to prevent the material from entering drains or water courses. | |
|---------------------------|---|---|--|
| | | Prevent further leakage or spillage if safe to do so. | |
| | | Local authorities should be advised if significant spillages cannot be contained. | |
| | | | |

6.3 Methods and material for containment and cleaning up

| Methods for cleaning up : | Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal. Non-sparking tools should be used. |
|---------------------------|---|
|---------------------------|---|

6.4 Reference to other sections

For personal protection see section 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling : Do not use in areas without adequate ventilation. Do not breathe vapours or spray mist. In case of insufficient ventilation, wear suitable respiratory equipment.

SECTION 10: Stability and reactivity

10.1 Reactivity

No hazards to be specially mentioned.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

| Hazardous reactions : N | No dangerous reaction known under conditions of normal use. |
|-------------------------|---|
|-------------------------|---|

10.4 Conditions to avoid

| Conditions to avoid | : | Heat, flames and sparks. |
|---------------------|---|--|
| | | Strong sunlight for prolonged periods. |
| | | Risk of receptacle bursting. |

10.5 Incompatible materials

| Materials to avoid | : Oxidizing agents |
|--------------------|--------------------|
|--------------------|--------------------|

10.6 Hazardous decomposition products

No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Product:

| Product: | | |
|---------------------------|---|---|
| Acute oral toxicity | : | Remarks: This information is not available. |
| Acute inhalation toxicity | : | Symptoms: Inhalation may provoke the following symptoms:, Respiratory disorder |
| Acute dermal toxicity | : | Remarks: Prolonged or repeated skin contact with liquid may cause defatting resulting in drying, redness and possible blistering. |
| | | Symptoms: Skin disorders |

| Result | : | No eye irritation |
| GLP | : | yes |

Respiratory or skin sensitisation

Product:

Remarks

: This information is not available.

Components:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha:

| Species : | Guinea pig |
|--------------|------------------------------------|
| Assessment : | Does not cause skin sensitisation. |
| Method : | OECD Test Guideline 406 |
| Result : | Does not cause skin sensitisation. |

Sulfonic acids, petroleum, calcium salts:

| Assessment | : | The product is a skin sensitiser, sub-category 1B. |
|------------|---|--|
|------------|---|--|

distillates (petroleum), hydrotreated heavy paraffinic:

| Species | : | Guinea pig |
|------------|---|------------------------------------|
| Assessment | : | Does not cause skin sensitisation. |

Repeated dose toxicity

Product:

Remarks

: This information is not available.

Aspiration toxicity

Product:

May be fatal if swallowed and enters airways.

May be fatal if swallowed and enters airways.

Components:

Naphtha (petroleum), hydrotreated heavy; Low boiling point ydrogen treated naphtha: May be fatal if swallowed and enters airways.

distillates (petroleum), hydrotreated heavy paraffinic:

No aspiration toxicity classification

Distillates (petroleum), solvent-dewaxed heavy paraffinic; Baseoil — unspecified: No aspiration toxicity classification

Distillates (petroleum), hydrotreated heavy naphthenic; Baseoil — unspecified: No aspiration toxicity classification

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

12.6 Endocrine disrupting properties

Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

Product:

| Additional ecological infor- | : | No information on ecology is available. |
|------------------------------|---|---|
| mation | | |

SECTION 13: Disposal considerations

| 13.1 Waste treatment methods | |
|------------------------------|---|
| Product : | Do not dispose of with domestic refuse. Dispose of as hazardous waste in compliance with local and national regulations. |
| | Waste codes should be assigned by the user based on the application for which the product was used. |
| Contaminated packaging : | Packaging that is not properly emptied must be disposed of as the unused product. Offer empty spray cans to an established disposal company. Pressurized container: Do not pierce or burn, even after use. |
| | The following Waste Codes are only suggestions: |
| Waste Code : | unused product, packagings not completely emptied 16 05 04*, gases in pressure containers (including halons) containing hazardous substances |

Marine pollutant : no

14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Maritime transport in bulk according to IMO instruments

Remarks

: Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

| REACH - Restrictions on the manufacture, placing the market and use of certain dangerous substance mixtures and articles (Annex XVII) | | Not applicable |
|---|---------|--|
| REACH - Candidate List of Substances of Very Hig Concern for Authorisation (Article 59). (EU SVHC) | h : | This product does not contain sub- stances of very high concern (Regu- lation (EC) No 1907/2006 (REACH), Article 57). |
| REACH - List of substances subject to authorisation (Annex XIV) (EU. REACH-Annex XIV) | n : | Not applicable |
| Regulation (EC) No 1005/2009 on substances that plete the ozone layer (EC 1005/2009) | de- : | Not applicable |
| Regulation (EU) 2019/1021 on persistent organic p tants (recast) (EU POP) | ollu- : | Not applicable |
| Regulation (EC) No 649/2012 of the European Parl ment and the Council concerning the export and im of dangerous chemicals (EU PIC) | | Not applicable |
| | : P2 | |
| Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances. | P3a | FLAMMABLE AEROSOLS |
| | 34 | Petroleum products: (a) gasolines and naphthas, (b) kerosenes (including jet fuels), (c) gas oils |

according to Regulation (EC) No. 1907/2006 - PT (Commission Regulation (EU) 2020/878)

OKS 671

(including diesel fuels, home heating oils and gas oil blending streams),(d) heavy fuel oils (e) alternative fuels serving the same purposes and with similar properties as regards flammability and environmental hazards as the products referred to in points (a) to (d)

18 Liquefied extremely flammable gases (including LPG) and natural gas

| Volatile organic compounds | : | Directive 2010/75/EU of 24 November 2010 on industrial |
|----------------------------|---|---|
| | | emissions (integrated pollution prevention and control) |
| | | Volatile organic compounds (VOC) content: 80,63 % |

Other regulations:

Take note of Directive 94/33/EC on the protection of young people at work or stricter national regulations, where applicable.

15.2 Chemical safety assessment

This information is not available.

SECTION 16: Other information

| Full text of H-Statements | |
|---------------------------|---|
| EUH066 | : Repeated exposure may cause skin dryness or cracking. |
| H220 | : Extremely flammable gas. |
| H280 | : Contains gas under pressure; may explode if heated. |
| H304 | : May be fatal if swallowed and enters airways. |
| H317 | : May cause an allergic skin reaction. |
| EUH066 | : Repeated exposure may cause skin dryness or cracking. |

Full text of other abbreviations

Note C

: Some organic substances may be marketed either in a specific isomeric form or as a mixture of several isomers. In this case the supplier must state on the label whether the substance is a specific isomer or a mixture of isomers.

This safety data sheet applies only to products as originally packed and labelled. The information contained therein may not be reproduced or modified without our express written permission. Any forwarding of this document is only permitted to the extent required by law. Any further, in particular public, dissemination of the safety data sheet (e.g. as a document for download from the Internet) is not permitted without our express written consent. We provide our customers with amended safety data sheets as prescribed by law. The customer is responsible for passing on safety data sheets and any amendments contained therein to its own customers, employees and other users of the product. We provide no guarantee that safety data sheets received by users from third parties are up-to-date. All information and instructions in this safety data sheet have been compiled to the best of our knowledge and are based on the information available to us on the day of publication. The information provided is intended to describe the product in relation to the required safety measures; it is neither an assurance of characteristics nor a guarantee of the product's suitability for particular applications and does not justify any contractual legal relationship. The existence of a safety data sheet for a particular jurisdiction does not necessarily mean that import or use within that jurisdiction is legally permitted. If you have any questions, please contact your responsible sales contact or authorized trading partner.
